

Surveying aquaculture garbage in southern Newfoundland

In May and August of 2024, ASF staff visited sites in south Newfoundland where residents had complained about accumulations of aquaculture garbage persisting for years.

Here are photos and descriptions from two places:

May 2024, Hermitage Bay - 47°39'04"N 55°46'03"W

August 2024, L'Anse a Flamme. 47°37'33"N 55°54'04"W
